**Affordable Care Act Preventive Items and Services**

The Affordable Care Act (ACA) makes certain preventive medications available to you at no cost.

The following preventive medications are covered 100% and are not subject to deductibles. This list should be used as a guide. It cannot be considered a comprehensive listing of medications available or covered without cost-sharing. Coverage of any of the listed medications (including over-the-counter (OTC) medications) requires a prescription from a licensed health care provider. This list is subject to change as ACA guidelines are updated or modified.

Members: The terms of your health plan will ultimately determine coverage, the applicability of coverage criteria, and cost-sharing. Coverage is determined under the terms of your medical plan. If you have questions about your medical plan coverage, please call the Disney Add It Up! Benefits Center at 1.800.354.3970. You can also call Express Scripts at 800.375.0596 or visit their website at Express-Scripts.com.

Immunizations
Covered immunizations include those that are routine vaccines recommended by the Advisory Committee on Immunization Practices of the Centers for Disease Control and Prevention and that meet the US Food and Drug Administration approved indications for age and/or gender limitations. Coverage also includes immunizations used to prevent illnesses associated with travel such as typhoid, yellow fever, and Japanese encephalitis.

Contraceptive Methods
Covered products include OTC contraceptive methods (female condom, spermicides, etc.), oral contraceptives (including emergency contraception), and contraceptive devices (diaphragms, skin patch systems, injectable contraception, intrauterine systems, and implants).

Please note: coverage of brand name medications is dependent on the terms of your health plan.
