

Pharmacy anytime
and anywhere.
With digital tools
from Express Scripts
Pharmacy by Evernorth®.

Order medications and refills.

All your prescriptions are now all in one place. You can even see how much you might save if you get them filled at Express Scripts Pharmacy. Simply select the ones you wish to order, and they'll be delivered right to your door.

Track deliveries.

Don't guess when your medications will arrive. See exactly when your orders are placed, processed, shipped and delivered.

Make payments.

Easily pay for your prescriptions online and discover ways to manage your budget with automatic payments and payment plans.

Schedule automatic refills.

Never miss a dose with our automatic refill program.¹

Set up dose reminders.²

Stay on track with your treatment with automated alerts reminding you when it's time to take your medications.

Manage your medications on the go and on your schedule at [express-scripts.com/rx](https://www.express-scripts.com/rx) or with the **Express Scripts® mobile app**.

1. Not all medications are eligible for automatic refill. Some states or plans may require ongoing consent for auto-refill.

2. This function is only available on the Express Scripts mobile app.

It's easy to get started with Express Scripts Pharmacy

To activate your online account:

Visit express-scripts.com/rx or download the **Express Scripts mobile app** to set up your account in only a few minutes. If you have not registered yet, you'll need a few pieces of basic personal information.

If Express Scripts Pharmacy is a newer option under your plan, you may not be able to register online until your benefits start date.

If you have a new prescription, you have three options:

- + **Ask your doctor** to send a prescription for a 3-month supply with refills electronically to Express Scripts Pharmacy. (This is the fastest way to get your medication!)
- + **Visit express-scripts.com/rx**, log in and click the "Request an Rx" button on the right side of the home page.
- + **Call us** at the number on the back of your prescription ID card, and we'll contact your doctor for you.

If you have a current prescription eligible for home delivery:

Once you log in to your account, you may see existing prescriptions that are eligible for home delivery.

If you have refills available, simply click on them to order and set up payment. We'll contact your doctor and take care of the rest. You can let them know we'll be reaching out, so they're prepared with your information.

Or you can call us using the number on the back of your prescription ID card.

Never miss an important alert about your order or your account

Select text (SMS) as your Preferred Communication Method in your account settings. If you have the app, you can also allow push notifications to your Android or iOS mobile device.
