

# Home delivery copy for intranet sites.

Copy and paste the home delivery text provided below to quickly and easily display information on your company's intranet site.

## Home delivery makes pharmacy simple and stress free

Ordering your medications through Express Scripts Pharmacy by Evernorth® is a smart way to save time and money. Get 3-month supplies of long-term maintenance medications delivered right to your home quickly, safely and accurately. And standard shipping is included at no cost to you.

Getting started is easy. Ask your doctor to send your prescriptions electronically to Express Scripts Pharmacy. This is the fastest way to get your medication. You can also visit [express-scripts.com/rx](https://express-scripts.com/rx) and log in to "Request an Rx," or call the number on the back of your prescription ID card.

Once you activate your online account, you can transfer prescriptions to home delivery, order refills, track shipments and even set up automatic refills if your prescriptions are eligible.
