## Drugs That Require Step Therapy (ST)

In some cases, **Express Scripts Medicare®** (PDP) requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Step 1 and Step 2 drugs both treat your medical condition, we may not cover the Step 2 drug unless you try the Step 1 drug first. If the Step 1 drug does not work for you, we will then cover the Step 2 drug.

You will need authorization from Express Scripts Medicare before filling prescriptions for the Step 2 drugs shown in the following chart. Express Scripts Medicare will only provide coverage after it determines that the drug is being prescribed according to the criteria specified in the chart.

To request a review, please have your physician visit the Express Scripts online portal at [esrx.com/PA](https://esrx.com/PA). You, your appointed representative or your prescriber can also request a review by calling Express Scripts Medicare toll free at **1.844.374.7377**, 24 hours a day, 7 days a week. Customer Service is available in English and other languages. TTY users should call **1.800.716.3231**.

The formulary may change at any time. You will receive notice when necessary.

# ANTIDEPRESSANTS - SEROTONIN AND NOREPINEPHRINE REUPTAKE INHIBITORS (SNRI)

---

## Products Affected

### Step 2:

- Fetzima 120 mg capsule,extended release

## Details

---

<b>Criteria</b>	If the patient has tried a Step 1 drug, then authorization for a Step 2 drug may be given. Patients who are currently taking or who have taken brand name Fetzima at any time in the past and discontinued use may receive authorization without a trial of a step 1 product. Exceptions can be made for Fetzima without a trial of a step 1 drug if the patient has suicidal ideation.
