## ABOUT EXPRESS SCRIPTS MEDICARE (PDP)

### Who can join our plan?

To join Express Scripts Medicare (PDP), you must be entitled to Medicare Part A and/or be enrolled in Medicare Part B and live in our service area. Our service area includes:

- Value plan: All 50 states, the District of Columbia and Puerto Rico.
- Saver plan: All 50 states, the District of Columbia and Puerto Rico.
- Choice plan: All 50 states and the District of Columbia.

### Which drugs are covered?

We will generally cover the drugs in our formulary (list of covered Part D prescription drugs) as long as the drug is medically necessary, the prescription is filled at an Express Scripts Medicare network pharmacy, and other plan rules are followed.

You can see the complete 2021 formulary online for each of our plans, as well as any restrictions, at **express-scriptsmedicare.com/2021formulary**.

### Which pharmacies can I use?

We have a network of pharmacies (both standard and preferred), and you must generally use these pharmacies to fill your prescriptions for covered Part D drugs. If you use an out-of-network pharmacy, the plan may not pay for these drugs, and you may pay more than you pay at an in-network pharmacy. Some of our network pharmacies have preferred cost-sharing. You may pay less if you use these pharmacies.

You can check online to see if your pharmacy is in our network at **express-scriptsmedicare.com/2021network**.

## HOW ARE DRUG COSTS DETERMINED?

Cost may vary, depending on:

- **The drug's tier**  
Our plans group each medication into one of five or six "tiers."
- **The type of pharmacy you use**  
Our plans offer standard and preferred retail network pharmacies, standard and preferred home delivery pharmacies (including Express Scripts Pharmacy<sup>®</sup>), as well as long-term care, home infusion and Indian Health Service / Tribal / Urban Indian Health Program (I/T/U) pharmacies.  
  
Cost-sharing amounts at long-term care, home infusion and I/T/U pharmacies are the same as at a standard retail pharmacy. See page 1 for information about costs at out-of-network pharmacies.
- **The number of days the prescription is written for**  
Our plans may offer a 30-day supply, 60-day supply or 90-day supply, depending on the drug tier and pharmacy type. (Supplies at home infusion, I/T/U and out-of-network pharmacies are limited to 30 days. Long-term care pharmacies may dispense up to a 31-day supply.)
- **Which stage of the benefit you have reached**  
See information on benefit stages below.

## WHAT ARE THE MEDICARE PART D BENEFIT STAGES?

- **Annual Deductible Stage**  
In this stage, you pay a set amount before your plan begins to pay its share of the cost, if applicable.
- **Initial Coverage Stage**  
This stage begins after you pay your yearly deductible, if applicable. You remain in this stage until your total yearly drug costs reach \$4,130. (Total yearly drug costs include the total drug costs paid by you and any Part D plan since the calendar year began.)
- **Coverage Gap (or Donut Hole) Stage** (Most members do not reach the Coverage Gap.)  
This stage begins after your total yearly drug costs exceed \$4,130.
- **Catastrophic Coverage Stage**  
This stage begins after your year-to-date out-of-pocket costs exceed \$6,550.

## PART D SENIOR SAVINGS MODEL – SAVER AND CHOICE PLANS

The Part D Senior Savings Model provides consistent copays for select insulin drugs in all stages until you reach the Catastrophic Coverage Stage. (If you reach that stage, the cost-sharing amounts on page 8 will apply.) If you receive "Extra Help," you do not qualify for this program, and your Low-Income Subsidy (LIS) benefit will apply. To find out which drugs are select insulins, you can review the plan's Formulary, visit our website at [express-scriptsmedicare.com/2021formulary](https://www.express-scriptsmedicare.com/2021formulary), or contact Customer Service at the phone numbers on page 1.

**Choice plan:** The copay for select insulins in Tier 6 is \$0 at a preferred pharmacy or \$11 at a standard pharmacy for a 30-day supply in all stages up to the Catastrophic Coverage Stage.

**Saver plan:** The copay for select insulins in Tier 3 is \$35 for a 30-day supply at all network pharmacy types, in all stages up to the Catastrophic Coverage Stage. Because there is no deductible for insulins in Tier 3, the copay will not apply toward the deductible.

## MONTHLY PREMIUM AND DEDUCTIBLE

- A premium is the amount you pay for your prescription drug coverage each month.
- An annual deductible is the amount you pay out-of-pocket each year before the Initial Coverage Stage begins. Not all tiers have a deductible, as noted below.
- If you receive “Extra Help,” this information may not apply to you.

## PRE-ENROLLMENT CHECKLIST

Before making an enrollment decision, it is important that you fully understand our benefits and rules. If you have any questions, you can call and speak to a Customer Service representative at **1.866.477.5704**; TTY: **1.800.716.3231**.

### UNDERSTANDING THE BENEFITS

- Review the pharmacy directory to make sure the pharmacy you use for any prescription medicine is in the network. If the pharmacy is not listed, you will likely have to select a new pharmacy for your prescriptions.

### UNDERSTANDING IMPORTANT RULES

- In addition to your monthly plan premium, you must continue to pay your Medicare Part B premium. This premium is normally taken out of your Social Security check each month.
- Benefits, premiums and/or copayments/coinsurance may change on January 1, 2022.
